### Journal of Consulting and Clinical Psychology

from *Encyclopedia of Special Education: A Reference for the Education of Children, Adolescents, and Adults with Disabilities and Other Exceptional Individuals*

The *Journal of Consulting and Clinical Psychology* was first published in 1937 by the American Psychological Association (APA) under the name *Journal of Consulting Psychology*. Its original managing editor was J. P. Symonds. The editor, appointed by the APA, is currently Arthur M. Nezu, a Distinguished Professor of Psychology at Drexel University. There are nine associate editors and approximately 50 consulting editors appointed by the managing editor.

The journal publishes original contributions on such topics as the development and use of diagnostic techniques in the treatment of disordered behaviors; studies of populations of clinical interest; studies of personality and of its assessment and development related to consulting and clinical psychology; and cross-cultural and demographic studies of interest for behavioral disorders.

The journal considers manuscripts dealing with diagnosis or treatment of abnormal behavior. Manuscripts are submitted and blind-reviewed by a board of consulting editors. The journal receives approximately 400 manuscripts a year; about 25% of these are published. For additional information please visit: <http://www.apa.org/pubs/journals/ccp/index.aspx>.
